REFERENCES

In-Text Citation (please follow APA style): When using APA format, follow the author-date method in-text citation, and a complete reference should appear in the reference list at the end of the paper. APA style requires authors to use the past tense or present perfect tense when using signal phrases to describe earlier research. E.g., Jones (1998) **found** or Jones (1998) **has found**...

Reference (please follow APA style): Author's last name followed by initials; publication year goes between parentheses, followed by a period. The title of the article is in sentence case, meaning only the first word and proper nouns in the title are capitalized. The periodical title is run in title case, and is followed by the volume number, which, with the title, is also italicized.

Author, A. A., Author, B. B., & Author, C. C. (Year). Title of article. *Title of Periodical*, volume number (issue number), pages. /Times New Roman, 10/

MORE INFO:

1. Only presented papers will be published and submitted to be included in the Thomson Reuters Conference Proceedings Citation Index.
2. The manuscript should be presented in **English language**.
3. Submitted papers have to be **at least 4 and not more than 6** pages long.
4. Files should be named > FMPMSA-SurnameFirstAuthor.
5. **All manuscripts should be written in good English.**

While the editors fully understand the challenges posed to authors whose native language is not English, **it is the responsibility of the authors, not the editors that papers are to be submitted in good English. Papers below the standard can be returned to the authors for rewriting and can be rejected for this reason alone.**

Such problems may be avoided and acceptance expedited if the authors use "grammar and spell check" software to correct basic errors, and have their manuscripts edited by an English-speaking colleague or a professional editing service before the initial submission.
